Technical Skills

JAVA, Javascript, Html5, Microsoft office, Azure, SQL, Python, CSS

Experience

International Volunteering Project with AIESEC, Sri Lanka

09/2024 - Present
- Selected for AIESEC's international volunteering project in Sri Lanka, qualifying through all rounds and interviews.
- Contributed to global initiatives focused on environmental sustainability and community development.
- Enhanced cross-cultural communication skills and hands-on project experience in an international setting.

Web Developer

- Redesigned the website to create a more visually appealing, user-friendly experience
- Developed interactive, responsive websites using HTML, CSS, JavaScript, and Bootstrap.
- Created a portfolio site featuring animation effects, a hamburger menu for responsive navigation, and integrated API in the contact form.
- Designed and built the "Environmental Waste Management Council" (EWMC) website, an educational platform promoting waste management, recycling, and sustainable practices, with resources for public engagement.

Environmental Tech Projects

10/2024 - 11/2024
- Led the development of web projects focused on water management and recycling awareness using HTML, CSS, and JavaScript.
- Integrated animated loaders, educational videos, and detailed composting information on a site for environmental awareness.

Content Creator

Produced engaging YouTube content on kids' rhymes and educational topics, focusing on creativity and effective content delivery for young audiences.
